FOR MODELS and ACTORS

If you are in need of a Model/Actor Portfolio and would like to capture several looks in a Photo Session, portraying your personalities and your ability as a versatile actor/model and obtain a package of images. This is for you.

For me a photo session is always several shoots within one session. As a Photographer and Artist I perceive the subject matter/model in different points of view's so bringing out different aspects of the personality.

A Photo Session can be about acting or movement or just the raw reality of an emotion, fun, play and laughter, captured and frozen into two dimensions. For me it is about capturing a moment in time and holding beauty, form and space in a frame as I paint with my camera and light.

FOR MATERNITY

Would you like to capture the time when life within you for the two of you began?
And the miracle of your newborn child?
